

## An Ode to LAPC'06

The LAPC'06 is quite a conference in my book,

It's success with a capital S written all over it, no matter how you look;

The Technical Program is very rich with topics ranging from alpha to zeta,

Covering multiband, UWB and RFID with materials that are meta.

And, just for kicks the committee added a fire drill,

Right in the middle of my talk, wow that was quite a thrill!

After only a day my brain is so very full that I cannot think,

Except a voice inside me keeps telling me that I badly need a drink.

So my friends please raise your glasses and join me in a few toasts,

To say thanks to Yannis, Patrick and his hard working crew who have been such  
wonderful hosts.

A handwritten signature in black ink that reads "R. Mitra" with a long, sweeping horizontal stroke extending to the right.

Raj Mitra
